NEW 2.0 EDITION!

**IN JUST 2.5 DAYS, CREATE
POWERFUL ROADMAPS
TO GUIDE YOUR SUCCESS
FOR THE NEXT 10 YEARS**

Our beliefs are the single most determining factor in creating abundance and prosperity in our lives. In this course, you'll explore the unconscious fears and barriers that may be sabotaging or slowing your progress -- **"What am I pretending not to know?"**

You'll also awaken to the knowledge that abundance isn't limited to **financial security**. It's also about: **Relationships** and how we create lasting love and friendships; **Time** and how we prioritize the 24 hours of each day; **Health** and how we commit to choices that generate sustainable energy, emotional, mental and spiritual well-being.

After exploring your true intentions and goals in these areas through fun and eye-opening exercises, **you'll create a roadmap from next week through the next 10 years of your life**. Come chart your course for success in an outrageous environment designed to awaken **abundance** in you that will outflow **prosperity!**
